

A KAIROI HEALTH PRESS RELEASE

KairoiOptimize™ Partners with athenahealth®, Inc.

Kairoi Health Partners with athenahealth to Increase Productivity of Clinics

Kairoi Health, the developer of KairoiScheduler™, a scientific-based clinic productivity solution, today announced a partnership with athenahealth, Inc. through athenahealth's 'More Disruption Please' (MDP) program. As part of the athenahealth® Marketplace, this newly integrated application is now available to athenahealth's growing network of 114,000 healthcare providers for on demand productivity analytics and optimized schedule templates. KairoiScheduler enables the creation of optimized provider schedules that result in more patients seen, increased revenue, and happier providers.

"KairoiScheduler delivers a valuable, easy-to-use solution for healthcare decision makers interested in maximizing patient access without increasing overhead," said John Golenski, EdD, Kairoi Health founder and CEO. "Our proprietary schedule optimization engine is based on scientific innovations which were proven in managing complex logistics. KairoiScheduler facilitates real-time what if scenarios and produces schedule templates which maximize productivity while also reflecting provider preferences and clinic goals."

Like athenahealth, KairoiScheduler was designed as a cloud-based solution, so athenahealth clients have seamless access to a world-class schedule optimization solution available on demand to large and small healthcare organizations alike.

athenahealth is a network-enabled, results-oriented services company that offers medical record, revenue cycle, patient engagement, care coordination, and population health services for hospital and ambulatory clients. The company's vision is to build a national health information backbone to help make healthcare work as it should. As an MDP partner, Kairoi Health joins a network of like-minded healthcare professionals who are looking to disrupt established approaches in healthcare that simply aren't working, aren't good enough, or aren't advancing the industry and help providers thrive in the face of industry change.

AT A GLANCE

KairoiOptimize™ is a patented process that finds the pattern of late cancellations and no-shows in each provider's panel and uses this information to add slots to schedules that back-fill the gaps. Providers don't lose time waiting for patients who don't come. Their workdays flow better, reducing burnout, and patients get appointments sooner.
